Lawn to Lunchroom Program – San Diego, CA

Dear Mary,

I wanted to take this opportunity to personally thank you for your generous donation of \$50 on June 7<sup>th</sup>, 2017. Your contribution went directly into our newest program – **Lawn to Lunchroom** – pictured above.

The students you see in the photo attend Somner Elementary in San Diego, California. And even though it's their summer break, they were thrilled to volunteer in their new school garden that will supply fresh produce to their lunchroom cafeteria for the entire upcoming school year.

**This is all possible thanks to you**, and all the other wonderful donors who responded to our recent campaign aimed at opening 36 more ECOssociates Centers across the U.S. this year.

If you would like to see a special video about this program, [click here](#). The girls you see in the photo above are also in the video.

I also wanted to tell you, Mary, that in a few weeks **you will receive our special welcome packet** in the mail. In it, you will find our latest edition of the ECOssociates newsletter – *Doing Well, by Doing Good* – so you can keep up with our latest projects and center openings.

In that packet, you will also find **a special gift from me to you**. I'd hate to give away the surprise ... but let me just say it's something useful, and also something that can help reduce waste, and thus the tremendous burden on our planet.

Thank you again, Mary. All the good we try to do begins with generous donors like you.

With much gratitude,

*Rhonda Jenkins*

P.S. Mary, **I have one small favor to ask** of you. If you know of anyone who might be interested in our mission, and specifically our newest Lawn to Lunchroom program, would you be so kind as to forward this email to them? Our mission needs more people like you. Thank you once more!
