

*We help small businesses and
community groups do well by doing good.*

July 3rd, 2017

Dear Mary,

As the founder of ECOssociates, I am very excited to welcome you into our family.

Thank you so much for your generous donation.

Rest assured, we are putting it to good use. As I may have mentioned in your thank-you email, your gift went directly into our first-ever Lawn to Lunchroom program at Somner Elementary in San Diego, CA.

Through this program, not only are the children eating at least one healthy meal each day. But they are also learning how to produce their own food organically and sustainably. Food that is better for them, and better for the environment.

Now that's what I consider a win-win!

On the right-hand side of this letter, you can see all the centers we've already opened in 2017. As well as those that will open in the next couple of months. And each one of these centers will be incorporating

OUR NEWEST ECOSSOCIATES CENTERS

New Centers 2017

Memphis, TN
Spokane, WA
San Antonio, TX
San Diego, CA
Buffalo, NY
Greeley, CO
Rockford, IL

Springfield, IL
Concord, VT
Savannah, GA
Baton Rouge, LA
Las Cruces, NM
Salem, OR
Helena, MT
Milwaukee, WI
Duluth, MN

numerous Lawn to Lunchroom school programs in their respective communities.

This welcome packet includes the print version of our monthly newsletter – *Doing Well, by Doing Good*. In it you'll find personal stories of local eco-volunteers, as well as the people they educate and serve. These are people working hard every day to make sustainable living and earth-friendly practices commonplace in dozens of communities around the country.

And this is all thanks to donors like you. Your support is a smart investment in the future of our planet. I just wanted to let you know that **you are truly making a difference**, and how much I appreciate your help.

With much gratitude,

Rhonda Jenkins

Founder, ECOssociates.org

P.S. Mary, because you are a true friend of the environment, and to show my gratitude, I have included an ECOssociates tote bag in your welcome packet. It's made of recycled materials, and will help eliminate the need for plastic bags when you go shopping. Again, **my heartfelt thanks**.
