- Saves you time and money – it won't dull knives, or suffer from knife marks

Product Description:

Description title:

This 3-in-1 Acacia Wood Cheese Board, Cutting Board, and Serving Board is as Functional as it is Beautiful

Description body:

Become the envy of your neighbors with this gorgeous Acacia wood cheese cutting board.

Not only is it classy enough to use as a serving board when you're entertaining, it's also functional enough for everyday use. And no matter who you're cooking for, you'll love it for its perfect size and versatility.

Imagine having a cutting board that you can also use as a serving board. Now imagine being able to hold it with one hand, while serving with the other.

This acacia wood cutting board is beautiful enough for others. And perfect in every way for you.

***Use & Care for Your New Acacia Wood Board**

Wash your new acacia wood cheese board in warm, soapy water and thoroughly rinse with clean water. Do not soak. To dry, prop up off of counter (or hang) to allow all surfaces to air-dry evenly. Wood products should never be washed in the dishwasher.

After drying, rejuvenate and protect the acacia wood by rubbing it down with Ironwood Butcher Block Oil. Apply the oil liberally and allow it to soak in thoroughly before use. Regular application of our Butcher Block Oil will prevent cracking and preserve the rich natural colors of the acacia wood.
