This shirt has two pre-cut holes... for your arms.
Revolutionary, I know.
No surgery required.

2.

Finally, a shirt in a color other than... putrid brown turd.
Imagine walking around without looking like roadkill.
Welcome to the future.

3.

Built-in underarm coverage.
For when your deodorant gives up, but society still expects things from you.
You're welcome, strangers on the bus.

4.

Somehow, this shirt has a design on it.
Like, a picture. On a shirt.
I'll give you a moment to process that.

5.

It won't solve your problems.
But it does make your torso look... less pathetic.
Some might say that's priceless.

6.

Wearing this shirt won't heal your inner child.
But it might scare off the guy who ghosted you.
Which is basically the same thing.

7.

Humans evolved for millions of years.
Just to invent this shirt.
Honestly... worth it.

8.

But let's be honest—no shirt can do everything.
At least this one looks cool while you spiral.

9.

The lab said it couldn't be done.
But we put... a drawing... on a piece of fabric.
I know. I cried too.

10.

You are seen. You are valid.
You are wearing a shirt that doesn't smell like an old sandwich.
That's growth.

This tee shirt told me I was chosen.
I didn't ask what for. I just started packing.
We leave at dawn.

12.

I put this tee shirt on and immediately forgot my ex's name.
And also my own.
Now I just go by: Low Battery. Or sometimes... Homicide Adjacent.

This tee shirt made me feel something.
That something was mostly fear.
But like... productive fear.

14.

I wore this tee shirt into the void.
The void said I looked hot.
Now we text.

15.

This tee shirt unlocked a memory I never had.

Something about a goat, a Ferris wheel, and my third grade gym teacher.
Anyway, 10/10. Highly recommend.

16.

This tee shirt told me to quit my job.
So I did.
Now I live inside a vending machine behind a Denny's.
And I've never felt more alive.

17.

I wore this tee shirt to a family dinner.
No one made eye contact with me.
Honestly? Incredible.

18.

This tee shirt smells like rebellion, static, and unresolved childhood trauma.
It whispers, "Set it all on fire. I'll explain later."
But otherwise, I love it!

19.

This tee shirt keeps showing up in dreams I didn't have.
It whispers, "Your twin never made it out."
Dark, but somehow... comforting.
