This is you working.

Look at you go!

Animated video of guy/gal working in your industries.

This is your phone ringing.

And ringing.

And ringing.

Split screen – office with old school rotary phone visibly hopping around as if ringing.

Those are your future earnings.

Back to single screen; dollar signs floating from guy/gal working up into the sky/ceiling.

Wave goodbye!

Guy/gal notices and looks up.

It's 2026.

Guy/gal looks back at camera forlornly.

Let AI phone answering handle the calls.

Guy/gal turn that frown upside down plus maybe another visual cue like thumbs up.
